- ▶ *Increases employee productivity*
- ▶ *Improves customer service levels*
- ▶ *Rapid return on investment*
- ▶ *Unifies people, processes, and content*

Integrated Documents

Fully Integrated Document Control

A critical element contributing to the success of your enterprise is an efficient flow of business documents. From engineering drawings to purchase orders to invoices, business documents need to be easily accessible for viewing when required by authorized individuals. However, in most organizations, documents are not readily accessible without wasting time, energy, and paper. American Software has partnered with MaxRecall to bring you Aslrecall – giving you access to just about any document you'll need.

Aslrecall gives you true automation of business processes within your enterprise. Not only will you be able to retrieve scanned images such as packing slips, picking tickets, and HR documents, but Aslrecall can retrieve images of spool files created by American Software's ERP system. You'll be able to view, print, fax, and e-mail purchase orders, acknowledgements, invoices, and reports. Documents can be stored in a variety of file types (TIFF, JPG, BMP, PDF, DOC, HTML), and EDI files can be converted to documents that you can view.

Aslrecall is completely integrated with American Software's ERP systems. You can access documents using function keys or subfile options. Documents can be viewed using a client application or a web browser leading you to increased productivity and improved customer service.

Benefits of Aslrecall

- Reduce expenses – you can significantly reduce expenses associated with storing, retrieving, faxing, copying, and shipping paper documents
- Increase productivity – adding an integrated document management solution enables you to automate business workflows and more rapidly capture and store important documents
- Improve customer service – requests for documents can be fulfilled faster and more accurately, all without storing bulky paper and wasting valuable floor space
- Improve compliance with industry regulations – maintaining easy access to important document archives helps you comply with Sarbanes-Oxley

Turn your vision
into value...

- ▶ Drive competitive advantage
- ▶ Deliver a faster, higher return on investment
- ▶ Reduce time to access documents with a fully-integrated document management system
